Summary

PharmD and pharmacovigilance systems professional with 6+ years of experience supporting Oracle Argus Safety, LSMV, global ICSR workflows, E2B R2/R3, system migration, configuration validation, UAT, and production issue resolution. Experienced in reviewing fields, codelists, data mappings, business rules, workflow routing, intake queues, and E2B data elements against business and regulatory requirements. Skilled in requirements analysis, change-request assessment, incident management, SQL, PL/SQL, test execution, defect retesting, and coordination with safety, quality, reconciliation, IT, vendor, and client teams.

Skills

- **Argus and Safety Systems:** Oracle Argus Safety, Argus Configuration Validation, Argus Console, LSMV, ArisG, Veeva Vault, Medidata Rave EDC, SAP
- **System Validation and Testing:** Functional Testing, UAT, Test Scenarios, Expected and Actual Results, Test Evidence, Defect Tracking, Retesting, Requirement Traceability, Change Requests
- **Safety Data and Integration:** E2B R2/R3, ICSR Workflows, Field Mapping, Codelists, Business Rules, Workflow Routing, Email Intake, E2B Queues, Data Validation, Reconciliation
- **Production Support:** Incident Management, Root-Cause Analysis, Queue Monitoring, Issue Reproduction, Enhancement Support, Post-Migration Stabilization, Vendor Coordination
- **Compliance:** FDA, EMA, ICH, GVP, GCP, GxP and CSV, SOPs, Good Documentation Practices, Audit Support
- **Technical Tools:** SQL, PL/SQL, Advanced Excel, VBA, Power Query, Power BI, SAS, XML, HTML, CSS, JavaScript, Data Transformation, Dashboard Development, Natural Language Processing, Machine Learning, Oracle DB

Experience

Clinical Informatics Analyst | Village Eyecare – Chicago, IL | Jan-2026 – May 2026

- Led EHR data migration from OfficeMate to Barti by cleansing, normalizing, and validating 100,000+ records using SQL Server Management Studio and Advanced Excel, ensuring accurate data mapping.
- Developed ETL workflows for data extraction, transformation, and reconciliation to align with target system requirements.
- Supported medical device and system integration by configuring data workflows and automating file transfers from network sources.
- Collaborated with clinical, operational, and IT teams to identify workflow gaps and improve scheduling, VOIP, and insurance eligibility processes.

Senior Pharmacovigilance Associate | Ergomed | Apr-2024 – Jul-2024

- Supported pharmacovigilance and post-market safety operations across oncology products, dermal fillers, and medical devices, ensuring accurate intake, review, validation, and reconciliation of safety data.
- Performed safety data quality review, trend monitoring, and reconciliation activities across multiple safety sources to support vigilance workflows, regulatory compliance, and inspection readiness.
- Assisted in reporting and workflow tracking activities related to safety operations, case prioritization, and operational performance monitoring.

Pharmacovigilance Services Analyst | Accenture | May-2019 – Jul-2023

- Supported Oracle Argus Safety and LSMV across global ICSR intake, triage, E2B R2/R3, duplicate management, reconciliation, and regulatory reporting workflows.
- Supported Argus configuration and validation involving case fields, codelists, field mappings, business rules, workflow routing, letters, action items, user access, and E2B data elements.
- Reviewed incidents, enhancements, and change requests, assessed their impact on existing safety workflows, and provided functional requirements to IT teams.
- Created and executed functional tests and UAT scenarios for fixes, enhancements, and configuration changes, documenting results, defects, evidence, and retest outcomes.
- Managed approximately 70 incidents and enhancement tickets involving email intake, E2B transmissions, worldwide safety mailbox issues, system queues, and case-creation failures and helped resolve approximately 50 issues.

- Supported the Argus-to-LSMV migration through configuration comparison, data validation, field mapping, queue setup, workflow transition, cutover support, and post-migration stabilization.
- Used SQL and PL/SQL knowledge to investigate database, mapping, queue, and data-flow issues and coordinate technical resolutions with IT teams.
- Mapped vendor line-listing fields to LSMV ICSR fields and developed an Excel VBA solution that reduced manual file preparation from approximately one day to five minutes.
- Worked with IT to improve acknowledgement automation, email filtering, attachment-size limits, queue handling, and intake controls and trained approximately 30 users during the LSMV transition.
- Functioned as triage SME by mentoring team members, creating duplicate search templates, guiding workflow adherence, and supporting high-priority reporting scenarios.

Drug Safety Associate | Bioclinica (Clario) | Jan-2019 – May-2019

- Reviewed spontaneous, clinical, and literature cases for completeness, accuracy, seriousness, listedness, expectedness, and product-event relationship before entry into Argus LAM.
- Performed reconciliation, follow-up, and label review using Veeva Vault and coordinated with vendors and business partners to resolve safety-reporting discrepancies.
- Handled MICC requests from healthcare professionals and consumers through phone, fax, and email; responded to medical inquiries using standard response letters and approved labeling resources, documented information following Good Documentation Practices, and routed AEs and product complaints to the appropriate teams.

Auditor | PrimEra Medical Technologies (Prime Healthcare) | Mar-2017 – Aug-2018

- Reviewed patient records in Epic and Cerner systems to assess compliance with clinical quality measures.
- Led a team of 6 to ensure timely abstraction, reporting accuracy, and adherence to quality standards.
- Created Excel-based duplicate detection logic and supported UAT for semi-automation of sepsis data abstraction from Epic.

Education and Training

Governors State University | University Park, IL | Aug 2024 - May 2026

Master of Science in Health Informatics (MSHI)

Andhra University | Visakhapatnam, India | Nov 2011 - Dec 2017

Doctor of Pharmacy (PharmD)

Projects

FDA FAERS Pharmacovigilance Analytics Dashboard | Power BI, Power Query, DAX, Deneb

Built an interactive dashboard to analyze adverse event trends, serious outcomes, patient demographics, suspect products, and post-market safety reporting patterns using FDA FAERS data.

NLP-Based Clinical Information Extraction | Python, spaCy, Transformers

Extracted and mapped structured ICSR information from synthetic MedWatch and CIOMS reports.

Healthcare Data Architecture & ERD Design | SQL, Data Modeling

Designed a normalized pharmacovigilance database supporting case intake, safety review, security, and regulatory submissions.

Honors

Upsilon Phi Delta Honor Society

Alpha Alpha Alpha (Tri-Alpha) Honor Society, Zeta Eta Chapter

Certifications
