

GOUTHAM KONDETI

Healthcare Data Analyst | SQL, Power BI and Clinical Data

goutham.kondeti@gmail.com | (720) 742-6576 | [Chicago, IL](#) | [linkedin.com/in/goutham-kondeti](https://www.linkedin.com/in/goutham-kondeti) | <https://github.com/Goutham-Kondeti>

PROFESSIONAL SUMMARY

Healthcare data analyst with a PharmD, Master of Science in Health Informatics, and 6+ years of experience working with clinical, operational, pharmacovigilance, and quality data. Experienced in extracting, cleaning, transforming, mapping, reconciling, validating, and reporting high-volume data using SQL Server, Advanced Excel, Power Query, VBA, Power BI, Python, SAS, and SPSS. Combines healthcare-domain knowledge with data-quality, workflow, dashboard, automation, and stakeholder communication skills to convert complex data into reliable operational and clinical insights.

CORE SKILLS

Data Analysis and Visualization: SQL, SQL Server, SSMS, Advanced Excel, PivotTables, XLOOKUP, Power Query, Power BI, VBA, Python, Pandas, SAS, SPSS

Data Management: Data Extraction, ETL, Cleansing, Transformation, Mapping, Reconciliation, Validation, Deduplication, Data Quality, Data Modeling, ERD Design

Analytics: Descriptive Statistics, Hypothesis Testing, Chi-Square, Correlation, Logistic Regression, Trend Analysis, KPI Reporting, Dashboard Development

Healthcare Data: EHR/EMR, Clinical Quality Measures, Pharmacovigilance, ICSR Data, Medical Coding, Revenue-Cycle Workflows, Inventory and Operational Data

Professional: Requirements Analysis, Stakeholder Communication, Process Improvement, UAT, Root-Cause Analysis, Documentation, Project Coordination

PROFESSIONAL EXPERIENCE

Clinical Informatics Analyst | Village Eyecare – Chicago, IL | Jan 2026 – May 2026

- Extracted OfficeMate data through reports, administrative exports, and SQL Server Management Studio and queried joined tables to prepare data for Barti onboarding.
- Cleaned, standardized, consolidated, reconciled, and validated more than 100,000 inventory records across multiple locations using SQL and Advanced Excel.
- Applied XLOOKUP, TRIM, CLEAN, VALUE, duplicate checks, validation rules, and exception review to improve data completeness and consistency.
- Mapped SKUs, UPCs, vendors, pricing, product descriptions, frame attributes, lens information, and location-level inventory fields to target-system templates.
- Analyzed OfficeMate and Barti data structures and configuration differences and documented gaps affecting migration and reporting.
- Prepared trackers and validation outputs for clinic leadership, vendors, and IT teams to monitor data issues, ownership, and resolution.
- Reviewed scheduling, eligibility, coding, billing, appointment, and call-routing workflows to identify data and process improvement opportunities.

Senior Pharmacovigilance Associate | Ergomed – Mumbai, India | Apr 2024 – Jul 2024

- Reviewed and reconciled safety data across oncology, dermal filler, cosmetic, and medical-device programs and identified missing, inconsistent, or duplicate information.
- Tracked case status, priorities, pending actions, and documentation quality to support timely safety operations.

Pharmacovigilance Services Analyst | Accenture – Chennai, India | May 2019 – Jul 2023

- Processed and reviewed approximately 25,000 ICSRs across multiple report types and maintained accurate patient, reporter, product, event, laboratory, seriousness, causality, and narrative data.
- Created monthly duplicate trend reports, root-cause summaries, CAPA materials, quality presentations, and operational dashboards.
- Created a master Excel workbook that consolidated work from six team members and tracked intake volume, queue failures, duplicate trends, ticket status, ownership, and pending actions.
- Managed approximately 70 incidents and enhancement tickets and helped resolve approximately 50 issues involving intake, E2B, system queues, and data-flow failures.
- Used SQL and PL/SQL knowledge to investigate database, data-mapping, queue, and workflow issues and communicate findings to IT teams.
- Mapped vendor line-listing columns to LSMV ICSR fields and supported automated case-creation requirements.
- Developed an Excel VBA tool that split line listings containing more than 100 patient records into individual files, reducing preparation time from approximately one day to five minutes.
- Supported Argus-to-LSMV migration through data review, validation, field mapping, issue tracking, cutover, and post-migration stabilization.

Drug Safety Associate | Bioclinica (Clario) – Mysore, India | Jan 2019 – May 2019

- Reviewed, reconciled, and validated medical information and adverse-event data across source documents, Argus LAM, Veeva Vault, vendors, and business partners.

Auditor | PrimEra Medical Technologies (Prime Healthcare) – Hyderabad, India | Mar 2017 – Aug 2018

- Reviewed and abstracted Epic and Cerner clinical data for sepsis, stroke, VTE, myocardial infarction, and immunization quality measures.
- Created a multi-criteria Excel formula to identify duplicate cases across production records and improve reporting accuracy.
- Performed 100% quality review for six team members across three hospitals and monitored errors, corrections, and CAPA responses.
- Supported UAT for a semi-automated Epic data-abstraction tool by validating extracted results against clinical requirements.

PROJECTS

NLP-Based Clinical Information Extraction | Python, Pandas, spaCy, Transformers

Built a reproducible workflow to extract, map, validate, and compare structured ICSR fields from synthetic MedWatch and CIOMS documents and generated analytical outputs from model predictions.

Healthcare Data Architecture and ERD Design | SQL, Oracle Data Modeling

Designed normalized conceptual and logical data models, primary and foreign keys, data domains, security roles, and reporting relationships for a pharmacovigilance database.

FDA FAERS Pharmacovigilance Analytics Dashboard | Power BI, Power Query, DAX, Deneb

Built an interactive dashboard to analyze adverse event trends, serious outcomes, patient demographics, suspect products, and post-market safety reporting patterns using FDA FAERS data.

EDUCATION

Governors State University | University Park, IL | Aug 2024 – May 2026

Master of Science in Health Informatics | GPA: 3.95

Andhra University | Visakhapatnam | Nov 2011 – Dec 2017

Doctor of Pharmacy (PharmD)

HONORS

Upsilon Phi Delta Honor Society

Alpha Alpha Alpha (Tri-Alpha) Honor Society

CERTIFICATIONS

Project Management Professional (PMP) | Oracle Argus Safety Administration | OCI 2025 Certified Data Science Professional | Power BI | SQL & PL/SQL | Base SAS
