Summary

PharmD and pharmacovigilance operations professional with 6+ years of experience supporting global safety operations, ICSR intake, triage, case processing, reconciliation, quality review, vendor coordination, and regulatory timeline management. Experienced in leading critical triage workflows, mentoring teams, monitoring operational performance, supporting audits, developing SOPs, and coordinating with medical, quality, IT, vendor, business partner, and client teams. Skilled in Oracle Argus Safety, LSMV, ArisG, E2B R2/R3, operational dashboards, incident management, process improvement, and system migration support.

Skills

- **PV Operations:** Global ICSR Operations, Intake and Triage, Case Processing, SRLs, SAP, Workload Prioritization, Regulatory Timelines, Duplicate Management, Reconciliation, Follow-Up, Vendor Management, SLAs
- **Leadership and Quality:** Team Mentoring, SME Support, Quality Review, KPI Monitoring, SOP Development, CAPA, Root Cause Analysis, Audit Support, Process Improvement, Stakeholder Communication
- **Safety Systems:** Oracle Argus Safety, LSMV, ArisG, Veeva Vault, Medidata Rave EDC, E2B R2/R3
- **Data and Reporting:** Advanced Excel, Power BI, Power Query, VBA, SQL, PL/SQL, Dashboards, Metrics Reporting, Trend Analysis, Issue Tracking
- **Compliance:** FDA, EMA, ICH, GVP, GCP, Good Documentation Practices, Regulatory Reporting, Audit Readiness

Experience

Clinical Informatics Analyst | Village Eyecare – Chicago, IL | Jan-2026 – May 2026

- Led EHR data migration from OfficeMate to Barti by performing large-scale data cleansing, normalization, and validation of 100,000+ inventory records using SQL Server (SSMS) and Advanced Excel, ensuring accurate mapping of SKUs, UPCs, vendors, pricing, and optical attributes.
- Supported clinical systems integration by analyzing and configuring data workflows for diagnostic devices and implementing automated file transfer and synchronization from network directories to cloud environments.
- Collaborated with clinical, operational, and IT stakeholders to assess system capabilities, identify workflow gaps, and optimize scheduling, VOIP centralization, and insurance eligibility processes.

Senior Pharmacovigilance Associate | Ergomed | Apr-2024 – Jul-2024

- Supported pharmacovigilance operations across oncology, dermal filler, cosmetic, and medical device programs in Oracle Argus Safety.
- Reviewed incoming reports, case priorities, documentation quality, and reconciliation results and coordinated with safety, quality, medical, and cross-functional teams to resolve discrepancies.
- Monitored case status, pending actions, and workflow completion to support timely and accurate case handling.

Pharmacovigilance Services Analyst | Accenture | May-2019 – Jul-2023

- Processed approximately 25,000 ICSRs and supported intake and triage operations for a global safety account receiving an average of approximately 2,000 spontaneous, literature, clinical trial, product complaint, SUSAR, regulatory authority, and E2B cases in Oracle Argus Safety, ArisG, and LSMV.
- Led critical triage activities by reviewing completeness, urgency, report type, and regulatory timelines and prioritizing fatal and life-threatening SUSARs requiring expedited processing.
- Functioned as a triage SME and informal team lead for six team members, providing workflow guidance, resolving complex issues, monitoring quality, and supporting workload completion.
- Trained approximately 30 users during the Argus-to-LSMV migration, including direct mentoring and quality review for 10 assigned team members.
- Coordinated with safety review, medical review, quality, reconciliation, E2B, IT, vendors, business partners, and client teams to resolve case, workflow, and system issues.
- Managed vendor and business partner communication involving source-document discrepancies, acknowledgements, missing information, intake requirements, and reporting quality.
- Supported client and third-party audits by explaining intake and triage workflows, providing requested documentation, and demonstrating SOP and quality-control compliance.

- Prepared duplicate trend reports, root-cause summaries, CAPA discussion materials, quality presentations, and operational dashboards to monitor recurring issues and performance risks.
- Managed approximately 70 incidents and enhancement tickets involving email intake, E2B transmissions, worldwide safety mailbox issues, and system queues and helped resolve approximately 50 issues.
- Supported the Argus-to-LSMV migration through workflow transition, queue setup, cutover planning, data validation, issue management, and post-migration stabilization
- Partnered with IT to automate vendor acknowledgements, improve email filtering, support line-listing automation, increase attachment-size limits, and reduce unnecessary case creation.
- Developed an Excel VBA solution that split line listings containing more than 100 patient records into individual files, reducing processing time from approximately one day to five minutes.
- Created a master Excel tracker that combined work from six team members and monitored intake volumes, queue failures, duplicate trends, ticket status, and pending actions.
- Developed duplicate-search templates and an MICC SOP to improve workflow consistency, documentation quality, and adherence.

Drug Safety Associate | Bioclinica (Clario) | Jan-2019 – May-2019

- Managed MICC workflows for medical inquiries, adverse events, and product complaints received through phone, fax, and email, using approved response resources, GDP-compliant documentation, and correct routing to pharmacovigilance or Product Quality.
- Processed spontaneous, clinical, and literature cases in Argus LAM and performed follow-up, label review, listedness and expectedness assessment, reconciliation, and vendor and business partner communication.

Auditor | PrimEra Medical Technologies (Prime Healthcare) | Mar-2017 – Aug-2018

- Led quality operations for six team members across three hospital facilities and performed 100% review of clinical abstraction work.
- Identified quality issues, communicated corrections, collected CAPA responses, and monitored completion of corrective actions.
- Developed SOPs for sepsis, stroke, and VTE workflows and worked with team leads and SMEs to apply guideline updates and improve process consistency.

Education and Training

Governors State University | University Park, IL | Aug 2024 - May 2026

Master of Science in Health Informatics (MSHI)

Andhra University | Visakhapatnam, India | Nov 2011 - Dec 2017

Doctor of Pharmacy (PharmD)

Projects

FDA FAERS Pharmacovigilance Analytics Dashboard | Power BI, Power Query, DAX, Deneb

Built an interactive dashboard to analyze adverse event trends and post-market safety reporting patterns using FDA FAERS data.

NLP-Based Clinical Information Extraction | Python, spaCy, Transformers

Extracted and mapped structured ICSR information from synthetic MedWatch and CIOMS reports.

Awards & Recognition

- Quality Champion Award – Multiple recognitions for maintaining 100% quality and operational performance.
- Star Business Award – Recognized for operational contributions, intake workflow support, and process improvements.
- Encore Award – Recognized for contributions to pharmacovigilance operations and team support.
- Client Value Creation Award – Recognized for workflow optimization and client impact initiatives.

Honors

Upsilon Phi Delta Honor Society

Alpha Alpha Alpha (Tri-Alpha) Honor Society, Zeta Eta Chapter
