## Summary

PharmD and pharmacovigilance quality professional with 6+ years of experience in ICSR quality review, intake and triage compliance, reconciliation, duplicate management, SOP development, CAPA support, audit readiness, and safety data validation. Experienced in reviewing case documentation, source data, workflow controls, regulatory timelines, and system changes across Oracle Argus Safety, LSMV, ArisG, and Veeva Vault. Skilled in identifying quality risks, investigating recurring errors, preparing root-cause and CAPA materials, supporting client and third-party audits, and working with safety, medical, quality, IT, vendor, and client teams.

## Skills

- **PV Quality and Compliance:** ICSR Quality Review, Case Documentation Review, SOP Compliance, Good Documentation Practices, Data Integrity, Regulatory Timelines, Audit Readiness, Audit Support
- **Quality Management:** CAPA Support, Root-Cause Analysis, Error Trend Review, Quality Metrics, Reconciliation, Duplicate Management, Deviation and Quality Issue Tracking, Process Improvement
- **Safety Operations:** Intake, Triage, Case Processing, Follow-Up, Literature and Clinical Trial Cases, SUSARs, Product Complaints, E2B R2/R3, SAP
- **Systems and Validation:** Oracle Argus Safety, LSMV, ArisG, Veeva Vault, UAT, Configuration Validation, Change Requests, Functional Testing, Incident Management
- **Regulations and Tools:** FDA, EMA, PMDA, TGA, ICH, GVP, GCP, Advanced Excel, Power BI, Power Query, VBA, SQL, PL/SQL, VS code

## Experience

### Clinical Informatics Analyst | Village Eyecare – Chicago, IL | Jan-2026 – May 2026

- Created validation rules and performed quality checks on more than 100,000 records across multiple locations, reviewing required fields, duplicates, field mappings, pricing, product identifiers, and data completeness.
- Worked with Barti, OfficeMate, Netgain, clinic leadership, and IT teams to identify workflow gaps, document migration risks, clarify system requirements, and track implementation issues.

### Senior Pharmacovigilance Associate | Ergomed | Apr-2024 – Jul-2024

- Performed quality checks and reconciliation across oncology, dermal filler, cosmetic, and medical device safety programs in Oracle Argus Safety.
- Reviewed source documents and case data for completeness, accuracy, consistency, documentation quality, and workflow readiness and coordinated resolution of discrepancies with safety, medical, and quality teams.

### Pharmacovigilance Services Analyst | Accenture | May-2019 – Jul-2023

- Reviewed intake, triage, duplicate management, reconciliation, E2B, and case-processing activities for compliance with SOPs, processing guides, documentation standards, and regulatory timelines.
- Performed case and source-document quality checks involving ICSR validity, report classification, receipt dates, duplicate assessment, workflow routing, and expedited reporting priorities.
- Investigated duplicate cases, incorrect document links, data inconsistencies, and workflow errors and coordinated corrections, narrative updates, document transfers, and resubmission support.
- Prepared duplicate trend reports, root-cause summaries, CAPA discussion materials, and quality-awareness presentations to reduce recurring errors and improve documentation practices.
- Supported client and third-party audits by explaining intake and triage controls, providing requested documentation, and demonstrating workflow adherence and issue-tracking practices.
- Supported Argus and LSMV configuration validation by reviewing fields, codelists, mappings, business rules, workflow routing, user access, and E2B data elements against business requirements.
- Executed UAT for fixes and enhancements, documenting test scenarios, expected and actual results, evidence, defects, and retest outcomes.
- Managed approximately 70 incidents and enhancement tickets involving email intake, E2B transmissions, worldwide safety mailbox issues, queues, and case-creation failures and helped resolve approximately 50 issues.
- Supported the Argus-to-LSMV migration through data validation, configuration comparison, workflow review, queue monitoring, cutover support, and post-migration quality stabilization.

- Created duplicate-search templates, quality trackers, issue dashboards, and a master Excel workbook to monitor errors, queue failures, ticket status, team workload, and pending actions.
- Developed an MICC SOP covering adverse event (AE) intake, medical information requests, documentation, routing, and escalation requirements.
- Functioned as a triage SME and informal team lead for six team members, providing quality guidance, resolving complex issues, and monitoring workflow and documentation compliance.

#### **Drug Safety Associate | Bioclinica (Clario) | Jan-2019 – May-2019**

- Reviewed spontaneous, clinical, and literature cases for completeness, accuracy, seriousness, listedness, expectedness, and product-event relationship before entry into Argus LAM.
- Performed reconciliation, follow-up, and label review using Veeva Vault and coordinated with vendors and business partners to resolve safety-reporting discrepancies.
- Handled MICC requests from healthcare professionals and consumers through phone, fax, and email; responded to medical inquiries using standard response letters and approved labeling resources, documented information following Good Documentation Practices, and routed AEs and product complaints to the appropriate teams.

#### **Auditor | PrimEra Medical Technologies (Prime Healthcare) | Mar-2017 – Aug-2018**

- Performed 100% quality review for six team members across three hospital facilities, validating clinical abstraction against sepsis, stroke, VTE, myocardial infarction, and immunization guidelines.
- Identified documentation and abstraction errors, communicated corrections, collected CAPA responses, and monitored completion of corrective actions.
- Developed SOPs for sepsis, stroke, and VTE workflows and supported UAT and quality validation for a semi-automated Epic data-abstraction tool.

## **Education and Training**

Governors State University | University Park, IL | Aug 2024 - May 2026

**Master of Science in Health Informatics (MSHI)**

Andhra University | Visakhapatnam, India | Nov 2011 - Dec 2017

**Doctor of Pharmacy (PharmD)**

## **Projects**

### **FDA FAERS Pharmacovigilance Analytics Dashboard | Power BI, Power Query, DAX, Deneb**

Built an interactive dashboard to analyze adverse event trends, serious outcomes, patient demographics, suspect products, and post-market safety reporting patterns using FDA FAERS data.

### **NLP-Based Clinical Information Extraction | Python, spaCy, Transformers**

Extracted and mapped structured ICSR information from synthetic MedWatch and CIOMS reports.

### **Healthcare Data Architecture & ERD Design | SQL, Data Modeling**

Designed a normalized pharmacovigilance database supporting case intake, safety review, security, and regulatory submissions.

## **Honors**

Upsilon Phi Delta Honor Society

Alpha Alpha Alpha (Tri-Alpha) Honor Society, Zeta Eta Chapter

## **Certifications**
