Summary

PharmD and pharmacovigilance professional with 6+ years of experience in global ICSR intake, triage, case processing, reconciliation, duplicate management, and regulatory timeline control. Experienced in leading critical triage workflows, supporting high-volume safety operations, prioritizing expedited cases, mentoring team members, performing quality review, and resolving complex case and system issues. Skilled in Oracle Argus Safety, LSMV, ArisG, E2B R2/R3, vendor communication, SOP development, operational reporting, and cross-functional coordination.

Skills

- **Triage and Case Processing:** ICSR Intake, Case Validity, Case Prioritization, Regulatory Timelines, Expedited Reporting, Duplicate Search, Case Processing, Follow-Up, Reconciliation, Narrative Review
- **Leadership and Operations:** Team Guidance, Workload Coordination, Quality Review, Coaching and Mentoring, Escalation Management, KPI Monitoring, Operational Reporting, Process Improvement
- **Safety Systems:** Oracle Argus Safety, LSMV, ArisG, Veeva Vault, Medidata Rave EDC, E2B R2 /R3
- **Quality and Compliance:** FDA, EMA, ICH, GVP, GCP, SOP Compliance, Good Documentation Practices, CAPA, Root-Cause Analysis, Audit Support
- **Data and Tools:** Advanced Excel, Power BI, Power Query, VBA, SQL, PL/SQL, Dashboards, Metrics and Issue Tracking

Experience

Clinical Informatics Analyst | Village Eyecare – Chicago, IL | Jan-2026 – May 2026

- Led EHR data migration from OfficeMate to Barti by performing large-scale data cleansing, normalization, and validation of 100,000+ inventory records using SQL Server (SSMS) and Advanced Excel, ensuring accurate mapping of SKUs, UPCs, vendors, pricing, and optical attributes.
- Supported clinical systems integration by analyzing and configuring data workflows for diagnostic devices and implementing automated file transfer and synchronization from network directories to cloud environments.
- Collaborated with clinical, operational, and IT stakeholders to assess system capabilities, identify workflow gaps, and optimize scheduling, VOIP centralization, and insurance eligibility processes.

Senior Pharmacovigilance Associate | Ergomed | Apr-2024 – Jul-2024

- Supported ICSR intake, source-document review, case prioritization, and case processing across oncology, dermal filler, cosmetic, and medical device programs in Oracle Argus Safety.
- Reviewed case information and reconciliation results for completeness, accuracy, consistency, and workflow readiness and coordinated with safety, medical, quality, and cross-functional teams to resolve discrepancies.
- Monitored case status and pending actions to support timely workflow completion and accurate safety documentation.

Pharmacovigilance Services Analyst | Accenture | May-2019 – Jul-2023

- Supported high-volume intake and triage operations with an average daily inflow of approximately 2,000 spontaneous, literature, clinical trial, product complaint, SUSAR, regulatory authority, and E2B cases in Oracle Argus Safety and LSMV.
- Assessed ICSR validity, performed duplicate searches, classified report types, and routed new and follow-up information based on case priority and regulatory timelines.
- Identified and prioritized fatal and life-threatening SUSARs requiring expedited processing and seven-day reporting.
- Functioned as a triage SME and informal team lead for six members, providing daily guidance, resolving complex cases, monitoring quality, and supporting workload completion.
- Supported Oracle Argus configuration validation involving case fields, codelists, mappings, business rules, workflow routing, user access, and E2B data elements and performed UAT for system changes.
- Coordinated with case processing, safety review, medical review, quality, reconciliation, E2B, IT, vendors, business partners, and client teams to resolve case and workflow issues.
- Supported the Argus-to-LSMV migration and trained approximately 30 users, including direct mentoring and quality review for 10 assigned team members.

- Prepared duplicate trend reports, root-cause summaries, CAPA materials, quality presentations, and operational dashboards to address recurring errors and workflow risks.
- Developed duplicate-search templates, an MICC SOP, and an Excel VBA tool that reduced line-listing preparation time from approximately one day to five minutes.

Drug Safety Associate | Bioclinica (Clario) | Jan-2019 – May-2019

- Handled medical information requests received through phone, fax, and email; used approved standard response letters, labeling resources, and prior approved responses and provided answers within required business timelines through the requester's preferred channel.
- Classified MICC contacts as medical inquiries, adverse events, or product complaints; handled medical inquiries within MICC, forwarded adverse events to pharmacovigilance intake or case processing, and routed product complaints to Product Quality while following Good Documentation Practices.
- Processed spontaneous, clinical, and literature cases in Argus LAM and performed seriousness, listedness, expectedness, product-event relationship review, follow-up, and adverse event reconciliation.

Auditor | PrimEra Medical Technologies (Prime Healthcare) | Mar-2017 – Aug-2018

- Led quality operations for six team members across three hospital facilities and performed 100% review of clinical abstraction work.
- Identified quality issues, communicated corrections, collected CAPA responses, and monitored completion of corrective actions.
- Developed SOPs for sepsis, stroke, and VTE workflows and worked with team leads and SMEs to apply guideline updates and improve process consistency.

Education and Training

Governors State University | University Park, IL | Aug 2024 - May 2026

Master of Science in Health Informatics (MSHI)

Andhra University | Visakhapatnam, India | Nov 2011 - Dec 2017

Doctor of Pharmacy (PharmD)

Projects

FDA FAERS Pharmacovigilance Analytics Dashboard | Power BI, Power Query, DAX, Deneb

Built an interactive dashboard to analyze adverse event trends, serious outcomes, patient demographics, suspect products, and post-market safety reporting patterns using FDA FAERS data.

NLP-Based Clinical Information Extraction | Python, spaCy, Transformers

Extracted and mapped structured ICSR information from synthetic MedWatch and CIOMS reports.

Healthcare Data Architecture & ERD Design | SQL, Data Modeling

Designed a normalized pharmacovigilance database supporting case intake, safety review, security, and regulatory submissions.

Awards & Recognition

- Quality Champion Award – Multiple recognitions for maintaining 100% quality and operational performance.
- Star Business Award – Recognized for operational contributions, intake workflow support, and process improvements.
- Encore Award – Recognized for contributions to pharmacovigilance operations and team support.
- Client Value Creation Award – Recognized for workflow optimization and client impact initiatives.

Honors

Upsilon Phi Delta Honor Society

Alpha Alpha Alpha (Tri-Alpha) Honor Society, Zeta Eta Chapter
